

# Advanced Care for Chronic Wounds

John's Creek | Decatur | Marietta | Riverdale | Savannah

[restorefirsthealth.com](https://restorefirsthealth.com)

## Restore First Health

collaborates with Home Health, Assisted Living and Health Systems, as well as individual patients and families to provide in-home, advanced therapy for chronic wounds. Our team of professionals evaluates each patient and works with the provider teams to communicate, collaborate and offer customized care for patients who need bedside assistance for stalled and non-healing wounds.

## A Focus on Care Coordination

We evaluate each patient and provide weekly specialized treatment through the utilization of skin substitutes (allografts and other such FDA approved products) and advanced debridement. Our program works in collaboration with home health or other providers to ensure seamless collaborative efforts.

## Wound Qualifications

- ▶ Stalled Wounds that have had at least 30-days of documented traditional wound care treatment without closure
- ▶ Non-infected wounds
- ▶ Size of at LEAST 2cm x 2cm

## What our patients can expect:

- Weekly wound therapy in the comfort of their home.
- Collaboration and communication with authorized provider of home care/inpatient care.
- Friendly, compassionate Nurse Practitioners and medical assistants at each visit.
- Clear directions on how to care for your wound at home following therapy.
- Discharge planning for completed wound care.

## Wounds we care for

- Diabetic ulcers
- Sacral Ulcers
- Arterial Wounds
- Venous Wounds
- Traumatic Injuries
- Long term wounds that have not healed...

## Accepted Insurance

- Medicare
- Select Medicare Advantage Plans
